DATE

Raise Awareness for Cystic Fibrosis (CF) Take part in "CF Genes Day" on Friday 31 May 2024

Dear

Subject: Invitation to Participate in CF Genes Day - May 31, 2024

I hope this letter finds you well. During the month of May, the SA Cystic Fibrosis Association (SACFA) supports Cystic Fibrosis awareness month. We would like to invite _____ to join us in supporting the cause on CF Genes Day, which falls on Friday 31 May 2024.

CF Genes Day is a vital event organised by SACFA to raise awareness and funds for those affected by Cystic Fibrosis, a genetic disorder primarily impacting the lungs. On this day, supporters are encouraged to donate R10 for a sticker and wear jeans (i.e. a civvies day) to symbolise their support. The campaign's slogan, "Help us Breathe," underlines the importance of early diagnosis and proper treatment to improve the quality of life for individuals with CF.

We extend an invitation to your school to actively participate in CF Genes Day. Consider incorporating Cystic Fibrosis as a topic for a biology project, or have someone share their experience with Cystic Fibrosis. We are also available to provide information and even give a talk if requested. By joining this cause, we contribute to the ongoing efforts to promote early diagnosis and treatment for those affected by CF.

For more details and to stay updated, please visit our website at www.sacfa.org.za. We appreciate your support in creating awareness and making a positive impact on the lives of individuals with Cystic Fibrosis.

Thank you for considering our invitation. Together, let's make CF Genes Day a meaningful and impactful event, whether you are able to celebrate it on the 31st of May or an alternative day that suits your school.

Sincerely,

Kim Keyzer

We thank you for your Support – Help us Breathe!!
